

GHAD BUDGET REPORT

DATE: JUNE 20, 2006

TO: BOARD OF DIRECTORS

FROM: RICK ANGRISANI, DISTRICT MANAGER

RE: FISCAL YEAR 2006-07

BACKGROUND

In April, 2000, the property owners within the District approved, by ballot, assessments to cover the routine maintenance and operations needs of the District. The ballot measure also approved increases in the annual assessment not to exceed the CPI.

The settlement proceeds for the Presley lawsuit have funded the investigation and monitoring of the slope below Kelok Way. The monitoring of the slope has confirmed that movement is occurring at a depth some 30 feet below the Golden Eagle Place cul-de-sac. Stabilization costs far exceed the limited resources of the District and on several opportunities the property owners within the District have rejected any willingness to accept increases in the annual assessments. Aside from the continued monitoring of the slope below Kelok Way, no additional work is anticipated for the upcoming fiscal year.

The GHAD remains in a poor financial condition as it is anticipated that there will only be \$57,702 remaining in its reserves at the beginning of the upcoming fiscal year. As stated in the past, the lack of interest by the property owners in raising the annual assessments means that the remaining repair projects will be left undone and there will not be any funds available to assist affected property owners as the proposed assessments will not provide any increase to the District's reserve fund.

This budget proposes to continue funding just the routine operations of the District through the allowable annual assessments. The year to year increase allowable per the most current CPI is 3.16% (April 2005 to April 2006).

FY 2006-07

Following is the recommended assessment and budget for the GHAD for FY 2006-07 (see Exhibit A for the method of assessment):

TOTAL EXPENSES	\$30,327.88

EXHIBIT A

OAKHURST GEOLOGIC HAZARD ABATEMENT DISTRICT

METHOD OF ASSESSMENT

A geologic hazard abatement district is essentially a benefit assessment district. Therefore, the assessments must be apportioned to individual parcels according to the benefit received.

Based upon discussions with the City's consultant, Randy Leptien of Leptien, Cronin & Cooper, the various areas and types of development in Oakhurst require that the assessments be broken down by area as well as type of unit. The areas have been broken down to reflect, as much as possible, units with an equal amount of risk and benefit.

The total development has been divided into three areas for assessment:

Area 1	Lower 6000's, lower 5000's, Duets, and Townhouses
Area 2	Upper 6000's, upper 5000's, 8,000's, condominiums
Area 3	10000's

After reviewing the needs of each area and the benefits of the District to each area, we have assigned each area the following share of the District's costs (including reserves);

Area 1	25%
Area 2	50%
Area 3	25%

As will be noted, the number of units in each area is not considered a factor and the amount of assessment per unit will vary greatly from area to area. Since there are different types of housing mixed in Areas 1 and 2, we have assigned different assessment units to each type of housing as follows:

Single Family (regardless of size)	1.00
Duets	0.75
Multi-family	0.50

District Boundaries

As of FY 1999-00, the District was complete and consisted of 200 single family homes, 226 duets, and 169 townhouses in Area 1; 612 single family homes and 136 condos in Area 2; and 141 single family homes in Area 3.
